

Building a Clipboard using Richtextbox

'YOU NEED A form Named ProClipboard with a Richtextbox1 this is all operated from the primary form with a Richtextbox1 and the meun item below

Private Sub KeepSelectionOnlyToolStripMenuItem_Click(sender **As Object**, e **As EventArgs**) **Handles** KeepSelectionOnlyToolStripMenuItem.Click

'Only keep the selection and despose of evething else placing everthing on the program clipboard

```
ProClipboard.RichTextBox1.Clear()
Dim MyEnd As Integer
Label1.Text = RichTextBox1.SelectionStart
Label2.Text = RichTextBox1.SelectionLength
MyEnd = RichTextBox1.TextLength
RichTextBox1.SelectAll()
ProClipboard.RichTextBox1.SelectedRtf = Me.RichTextBox1.SelectedRtf
ProClipboard.RichTextBox1.SelectionStart = Label1.Text
ProClipboard.RichTextBox1.SelectionLength = Label2.Text
Me.RichTextBox1.Clear()
RichTextBox1.SelectedRtf = ProClipboard.RichTextBox1.SelectedRtf
```

End Sub

Private Sub ReturnCompleteToolStripMenuItem_Click(sender **As Object**, e **As EventArgs**) **Handles** ReturnCompleteToolStripMenuItem.Click

'Return everthing on the program clipboard

```
RichTextBox1.SelectAll()
RichTextBox1.SelectedRtf = ProClipboard.RichTextBox1.SelectedRtf
ProClipboard.RichTextBox1.SelectionStart = 0
ProClipboard.RichTextBox1.SelectionLength = 0
```

End Sub

Private Sub ReturnLessSelectedToolStripMenuItem_Click(sender **As Object**, e **As EventArgs**) **Handles** ReturnLessSelectedToolStripMenuItem.Click

'Return everthing but the original selesion on the program clipboard. then clear the program clipboard

```
ProClipboard.RichTextBox1.SelectionStart = Label1.Text
ProClipboard.RichTextBox1.SelectionLength = Label2.Text
ProClipboard.RichTextBox1.SelectedRtf = "" & vbCrLf & vbCrLf
ProClipboard.RichTextBox1.SelectAll()
Me.RichTextBox1.SelectedRtf = ProClipboard.RichTextBox1.SelectedRtf
ProClipboard.RichTextBox1.Clear()
Message.TextBox1.BackColor = Color.Yellow
Message.TextBox1.Text = "The Program Clipboard is now EMPTY"
Message.Timer1.Interval = 4000
Message.Show()
```

End Sub

```
Private Sub ProgramClipboardToolStripMenuItem_Click(sender As Object, e As  
EventArgs) Handles ProgramClipboardToolStripMenuItem.Click  
    ProClipboard.Show()  
    ProClipboard.Visible = True  
End Sub
```
