

Open Google with Search Text in Browser

```
Private Sub SearchSelectedWithGoogleToolStripMenuItem_Click(sender As Object, e
As EventArgs) Handles SearchSelectedWithGoogleToolStripMenuItem.Click
    If RichTextBox1.SelectedText.Length >= 2 Then
        TextBox1.Text = RichTextBox1.SelectedText
        Dim webAddress As String = "http://www.google.com/search?q=" &
TextBox1.Text.Trim() & "&qscr=1"
        Process.Start(webAddress)
    Else
        NothingSelected()
    End If
    Textbox1.Text = ""

End Sub
```
