

Using a text box to autosave filename

'using the textchanged event to automatically save a file path when the click/Double click event places the filepath in the LastFile textbox as in Lastfile text = the (full path of the file)

```
Private Sub LastFile_TextChanged(sender As Object, e As EventArgs) Handles
LastFile.TextChanged
    Dim MyDur As String
    MyDur = CurDir()
    Dim Thefile As System.IO.FileStream
    Thefile = System.IO.File.Create(MyDur & "\Settings\" & "LastOpened" & ".txt")
    Using sw As IO.StreamWriter = New IO.StreamWriter(Thefile)
        ' Add some text to the file.
        sw.Write>LastFile.Text)
        sw.Close()

    End Using
End Sub
```
