

## Find The ascii of a Character (Chr)

```
Dim MyTemp As String
MyTemp = TempTextBox.Text
Dim codeInt As Integer

' The following line of code sets codeInt to 65.
codeInt = Asc(MyTemp)
' ' The following line of code sets codeInt to 97.
'codeInt = Asc("a")
" The following line of code sets codeInt to 65.
'codeInt = Asc("Apple")
MsgBox(codeInt)
```
