

Make a search box using a form

'The form need 2 textboxes, 2 Radiobuttons, and a button, and 3 labels

```
Imports System.Text.RegularExpressions
```

Public Class frmForm

```
    Private Sub Button1_Click(sender As Object, e As EventArgs) Handles Button1.Click

        If TextBox1.Text.Length <= 0 Then
            MsgBox("You must place a Item in the frist text box that you would like to be
replace")
            Exit Sub
        End If

        If TextBox2.Text.Length <= 0 Then
            MsgBox("You must place a Item in the second text box that you would it replaced
with")
            Exit Sub
        End If

        If Form1.Textbox1.Text.Length <= 0 Then
            MsgBox("You must place a some text in the large text box that you would like to
be changed")
            Exit Sub
        End If

        If RadioButton1.Checked = True Then
            Dim str As String
            str = Form1.TextBox1.Text

            str = Regex.Replace(str, TextBox1.Text, TextBox2.Text)
            Form1.TextBox1.Text = str
        ElseIf RadioButton2.Checked = True Then
            Dim str As String
            str = Form1.TextBox1.SelectedText

            str = Regex.Replace(str, TextBox1.Text, TextBox2.Text)
            Form1.TextBox1.SelectedText = str

        End If

    End Sub

    Private Sub RadioButton2_Click(sender As Object, e As EventArgs) Handles
RadioButton2.Click
        RadioButton1.Checked = False
        RadioButton2.Checked = True
        Label3.Text = "This will REPLACE in the selected text only"
        Button1.Text = "Replace Selected"
    End Sub

    Private Sub RadioButton1_Click(sender As Object, e As EventArgs) Handles
RadioButton1.Click
```

```
RadioButton2.Checked = False
RadioButton1.Checked = True
Label3.Text = "This will REPLACE ALL instance of the Items"
Button1.Text = "Replace ALL"
End Sub
```

```
Private Sub RadioButton1_CheckedChanged(sender As Object, e As EventArgs) Handles
RadioButton1.CheckedChanged
```

```
End Sub
```

```
End Class
```
