

Circle Formulars

```
Public Class ??Whatever??
```

```
    Dim MyNum As Integer = 0  
    Dim Holder As Integer = 0  
    Dim SecondHolder As Integer = 0  
    Dim ThirdHolder As Integer = 0
```

'MaskedTextBox1.Text is the input for the formulars

```
If MaskedTextBox1.Text.Length >= 1 Then
```

'Area of a Circle

```
    SumLabel.Text = CDec(MaskedTextBox1.Text) * CDec(MaskedTextBox1.Text) *
```

0.7854

'Circurfrence Of Circle

```
    SumLabel.Text = CDec(MaskedTextBox1.Text) * 3.1416
```

'Diameter of a circle's Circurfrence

```
    SumLabel.Text = CDec(MaskedTextBox1.Text) / 3.1416
```
