

Classing span elements

```
<html>
<head>
<style>
span.note {font-size:120%;color:red;}
</style>
</head>
<body>

<h1>My <span class="note">Important</span> Heading</h1>
<p>This is some <span class="note">important</span> text.</p>

</body>
</html>
```

Produces

My Important Heading

This is some important text.
